

Make a Model

What would YOUR Everybody Club float look like? If you can't build a float for real, make a model!

Look around your home or classroom to see what materials you can use. See the list on the left to get some ideas. (Be sure to ask permission from an adult before using any supplies!)

Use this space to sketch how you want your Everybody Club float to look, or else draw a picture of it after you've built it.

boxes of all kinds

baskets

unopened cans

your own toys

folders or notebooks

tape

popsicle sticks

construction paper

streamers

stickers

empty food containers

yarn, string, or twine

paper towels

tissue paper

doll blankets

hand towels

hair bands
